SUMMARY

Full-Stack Developer with hands-on experience in building scalable, high-performance web applications. Skilled in developing end-to-end features, optimizing performance, and integrating services for authentication, media, and payments.

EXPERIENCE

Mountblue Technologies

Dec 2024 – March 2025

Software Developer Trainee

Built full-stack web applications using React, Redux Toolkit, and Node.js, emphasizing performance and scalable architecture. Refactored legacy codebases, improved frontend responsiveness, and reduced load time by 30%. Created modular and reusable components with proper state management using Redux Toolkit. Implemented RESTful APIs, handled authentication flows, and optimized SQL queries for faster data retrieval. Trained in JavaScript, Express, SQL, Git, and Linux environments through intensive hands-on modules.

Unified Mentor

Feb 2024 – June 2024

Full-Stack Developer Intern

Developed and maintained features in full-stack applications with React, Redux, Express, and PostgreSQL. Integrated secure JWT authentication and built protected routes using middleware logic. Designed scalable PostgreSQL database schemas and managed relationships with Sequelize ORM. Enhanced frontend functionality by consuming REST APIs and ensuring seamless UX. Collaborated with mentors and engineers to perform debugging, code reviews, and performance tuning.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS, Java, Data Structures and Algorithms (DSA), OOPs

Libraries & Frameworks: React, Redux Toolkit, Next.js, Node.js, Express, Sequelize, Tailwind CSS

Databases: MongoDB, PostgreSQL, MySQL

PROJECTS

Grocery Order System

React.js, Node.js, Express.js, MongoDB, JWT, Stripe API, Cloudinary, Tailwind CSS

Live Demo – GitLab

Developed a full-stack grocery ordering system with seller dashboards, secure authentication, and payment integration. Handled product image uploads via Cloudinary and integrated Stripe for real-time transaction processing. Admins can manage inventory, view user orders via a dedicated dashboard.

Ecommerce Web Application

Next.js, Clerk Auth, Inngest, MongoDB, Tailwind CSS

Live Demo – GitLab

Built a modern ecommerce app using Clerk for auth and Inngest for event-based workflows. Implemented responsive UI with Tailwind CSS and structured routes using Next.js App Router. Leveraged Inngest for background jobs and serverless functions.

EDUCATION

Lakhmi Chand Institute of Technology

B.Tech in Computer Science and Engineering CGPA: 8.4/10

Bilaspur

Aug 2020 – May 2024

CERTIFICATIONS

Full Stack Web Development, Apna College

Internship - Full-Stack Development, Unified Mentor

Feb 2024 – June 2024
